

EVALUATION GUIDE

CALL FOR PROPOSALS 31/12

SLATE FUNDING 2nd STAGE

INTRODUCTION

1. Aim of the Evaluation Guide

The aim of the **Evaluation Guide** is:

- to identify the different stages of the evaluation process and its methodology;
- to define the role of each assessor;
- to provide standard evaluation forms for the assessors. The use of these forms is mandatory for all assessors.

2. Assessors

For MEDIA Slate Funding 2nd stage, the assessors are:

- **the MEDIA Unit of the Executive Agency**, in charge of checking the eligibility of projects and assessing the selection criteria (**parts A and B of the evaluation guide**). The selection criterion relating to the financial capacity is only assessed for companies which have been pre-selected. The Agency also grants the automatic points (**part D of the evaluation guide**).
- **two experts**, in charge of assessing the award criteria (**parts C of the evaluation guide**).
- **an Evaluation Committee**, with at least 2 officials from the MEDIA Unit at the Executive Agency and at the Commission assisted by at least three independent experts. The Evaluation Committee validates the eligibility check and reviews the assessment of the selection and award criteria. The Evaluation Committee provides a clear justification for all its decisions and establishes a list of projects proposed for selection.

3. Organisation of the evaluation process

Evaluation phase	Assessor	The project
Eligibility criteria	Executive Agency	Is eligible ⇒ is assessed against selection criteria Is not eligible ⇒ is eliminated from the selection process
Selection criteria	Executive Agency	Meets the selection criteria ⇒ is assessed against award criteria Does not meet the selection criteria ⇒ is eliminated from the selection process. If the selection criterion concerning the financial stability is assessed as not fulfilled, the project is eliminated or can be supported subject to the provision of a bank guarantee, an interim payment or without pre-financing.

4. Ranking of the projects

The Evaluation Committee checks the consistency between the appreciation made by the experts and their relevance for each application. It carefully analyses the list of proposals and verifies the overall consistency of the results. This phase follows a peer assessment by external experts who have been briefed and are monitored by the Evaluation Committee.

On the basis of the final scores for the award criteria and of the scores for the automatic points, the projects are ranked in order of merit and the best ones are proposed for selection.

5. Decision regarding the amount of support

The Evaluation Committee can decide to lower the amount of support requested by the applicant. The Evaluation Committee must justify its decision on the basis of the development budget, by indicating which items are overestimated. The amount of support will also be reduced if one project of the proposed slate is ineligible subject to the condition that the slate retains at least 3 eligible projects and that the total amount of support is at least EUR70,000.

6. Decision by the Commission

After transmission of the list proposed by the Evaluation Committee to the MEDIA Committee for information and to the European Parliament for scrutiny, the Commission adopts a decision granting support to the best projects. The total budget available for the Call for Proposals cannot in any case be exceeded at the end of the selection process.

7. Information of the applicants

In case of non eligibility or rejection, applicants are informed by the Agency. If a proposal is eliminated for non-compliance with the eligibility rules, the applicant company will be notified as soon as possible. In case of rejection after evaluation of the award criteria, the experts' evaluations are not communicated to applicants for reasons of confidentiality and impartiality.

8. Confidentiality and conflicts of interest

The names of the experts assessing a specific application are confidential. Upon reception of the submission(s), experts are asked to sign a declaration of honour by which they declare that they are not placed in a position which may give rise to a situation of conflict of interests and they commit themselves to respect confidentiality, anonymity and independence.

In conformity with the Commission Regulation (EC) N° 651/2009 the Agency publishes every year on its website a list of experts used during the previous years.

A: ELIGIBILITY CRITERIA

Assessor: MEDIA Unit, Executive Agency

Proposals must comply with each of the criteria below. Failure to comply with one of them entails the elimination from the selection process. **Only eligible proposals qualify for the next stage of the evaluation process.**

The Agency does not ask applicants for missing documents. However, if the documents provided by the applicant company don't allow a complete and final assessment of the eligibility, the Agency will request additional information in order to be able to confirm whether or not the application complies with the eligibility criteria.

LIST OF THE ELIGIBILITY CRITERIA:

B. SELECTION CRITERIA

Assessor: MEDIA Unit, Executive Agency

For the evaluation of selection criteria, the assessor is asked to give a global evaluation regarding the ability of the applicant company to carry out the project, from financial and operational points of view.

1. Operational capacity

This criterion is assessed on the basis of the details relating to the experience of the members of the applicant company directly attached to the development of the submitted projects and the list of productions already produced by the applicant company and/or the producer of the referral work, as well as on the basis of the documents relating to the ownership of rights.

No later than on the date of submission, the applicant company must show that it holds the majority of the rights relating to each of the projects for which support is being sought. It is required to provide a contract covering the rights to the artistic material. This contract must be duly signed and dated by the author(s). If the project is an adaptation of an existing work (novel, biography etc.), the applicant company must also show that it holds the majority of the rights relating to the rights of adaptation to this work with an option agreement or transfer of rights contract.

If in the original application, no document concerning the rights situation is provided for one project, this project is ineligible and cannot be considered as part of the slate.

2. Financial Capacity

The applicant is requested to provide the audited annual accounts of the 2 most recent completed fiscal years for profit companies and of the last year for non profit companies (i.e balance sheet, profit and loss accounts and the annexes). These accounts should be certified by an approved auditor external to the company.

For the protection of the financial interest of the European Union, the financial capacity of the applicant companies which have been pre-selected for development support (after assessment of the award criteria) is assessed on the basis of:

- the balance between capital and reserves and liabilities
- the annual profitability
- the proved co-financing
- the level of the total development budget and the requested contribution

If on the basis of the documents provided the Agency considers that the financial capacity is not proven or is not satisfactory, it may refuse the application, request additional information, require a bank guarantee, offer a grant agreement without pre-financing or make a first payment after at least 50% of the estimated expenditure has been incurred on the basis of an Interim Financial Report certified by an external approved auditor.
