

Eligibility of organisations from non-EU countries

Article 8 of the Regulation No 1295/2013 establishing the **Creative Europe Programme** stipulates that countries other than EU Member States may participate in the Programme. This participation is subject to the conditions referred to in the same article.

The table below gives an indication of non-EU countries that fulfil these conditions. Please refer to the guidelines for the different calls for further details and timetables.

In addition, the Withdrawal Agreement ratified by the EU and the UK foresees UK participation in the current 2014-2020 Creative Programme until the closure of the programme, meaning that UK beneficiaries can continue to take part in grants awarded under the current Regulations until all activities are completed, even if it is after 2020.

Country	Organisations eligible to apply in the Culture Sub-programme?	Organisations eligible to apply in the MEDIA Sub-programme?
